SEBASTIAN LAWYER GRILLS CHAUFFEUR WITNESS

By Associated Press.
LOS ANGELES, April 27.—After he had testified briefly concerning letters and presents from Charles H. Sebastian to Mrs. Lillian Pratt, Charles Lewis, Sebastian's chauffeur and house servant, went under cross-examination today of counsel representing the suspended chief of police and the woman, who are charged with having contributed to the dependency of Lillian Pratt. Mrs. Pratt's half sister and maid.

Concluding his direct testimony, Lewis swore that while Sebastian was in the East last summer attending a convention of police chiefs, Mrs. Pratt showed him several letters which she said she had received from Sebastian, and later he delivered Mrs. Pratt told him the chief was fond of her.

Moreover, he told he saw a letterhead which had been presented by Sebastian to Mrs. Pratt, and that the letterhead was which Edith Perkins testified, when she was on the stand several days ago, that the police official had given to her.

After Lewis, deputy district attorney, Joseph Ford, a former deputy district attorney, began cross-examination in behalf of the defense.

Ford in a few minutes of questioning elicited from Lewis an admission that he had made a false statement in his application to the police commission for a place as patrolman in the Los Angeles police department. But Lewis asserted that the admission concerned the change of place and length of his residence there, was made at the suggestion of Mrs. Pratt, who had asserted yesterday had procured for him a letter of recommendation to the commission from Sebastian.

Ford then asked Lewis if he had been advised or requested by anyone else to make a false statement concerning Sebastian or Mrs. Pratt in connection with the case now on trial. The witness answered no.

Steal Postoffice Safe and Contents

REDDING, Cal., April 27.—Burglars carried off the postoffice safe from Castella, 60 miles north of Redding, last night, and obtained about \$1000 in cash and several hundred dollars in stamps. The safe was taken from the store where the postoffice is located on a stolen baggage truck. The burglars entered through the ceiling ventilator.

ADMITTED TO PROBATION.

A "night out" six weeks ago proved expensive in Charles F. Fogarty, a gambler. He is now paying the price of what started out to be a night of pleasure, and which brought him a broken head, six weeks in jail and finally a two-year probationary period. Fogarty pleaded guilty to a charge of desert with a deadly weapon, the charge growing out of his arrest for drunkenness. While being taken to jail he assaulted the arresting officer striking him over the head with a bottle. He was then taken to the hospital and charged with the felony offense. Judge J. J. Thibodeau admitted him to probation this morning.

alter or nervousness on the part of Hastings as a witness.

Hastings was held incommunicado while the detective investigated the validity of the alibi. They did not tell him the results of their investigation. When they came to question him after he had been confronted by Davis, he broke down and confessed, and gave the names of his co-conspirators.

BRAINS OF THE GANG.

Captain Agnew said today that in Harris, Louis Harris Smith, he has the brains of the gang. It was Harris who induced Stephen Ross, now in jail in San Francisco, for the sensational lottery robbery.

Harris tried to join him in that crime. Ross, who lived at 1023 Castro street, Oakland, met Harris on the street and asked him for money. Harris said he had none, but proposed that Ross should join him in "checking up a lottery." Ross had lost several hundred dollars playing the lotteries and joined Harris.

The two went to the Dean building, where they held up J. B. Brady and E. H. Chambers. They got \$250, which Ross carried. They were pursued and Harris made his escape. Ross tried to force an automobile driver to assist him in the escape, but was overtaken and captured. Deputy Sheriff Hugh H. Newell of Oakland aiding in the capture.

IDENTIFIED BY CHINESE.

Prior to the arrest Harris had held up the Chinese lottery man, Gee Moy, with the aid of an accomplice. He denied that today, but was positively identified by Gee Moy in the city jail.

Harris is also alleged to have been in the Los Angeles lottery man, Danvers, Cal., and it may be, the police say, that he is wanted there.

The police declare that Hastings and Parker, held up Davis, while Harris acted as a lookout. Harris then said he was having a direct part in the crime, whenever possible, leaving the dangerous roles to his accomplices. They say he broke his rule in the hold-up of Arthur at 908 Broadway, and that he assisted Hastings in the job, while Parker acted as lookout.

Following the confession of Hastings, several police were detailed to round up Harris and Parker. The arrests were made by Inspectors Wood, McFarlane, Wallman, Fulton, Patrolmen McCarthy, O'Donnell, Wills and Leonard.

Charges will be placed against the two within the next few days, according to the police.

JAIL "LOTTERY MAN"

Captain Agnew stated that the arrests threw no light on the forum robbery, which Roy M. Reed, the cashier, was held up.

The federal hold-ups in the offices of lottery concerns in Oakland resulted in a investigation, and two arrests were made last night at 506 Broadway, the scene of the last hold-up. Frank Arthur was arrested for selling lottery tickets and released on \$200 bail.

Robert Young was arrested for having lottery tickets in his possession at the same place. He was released on \$10 bail.

WOMAN ROBBED IN NIGHT She Is Waylaid by Bandit at Her Door

By Associated Press.

LOS ANGELES, April 27.—Mrs. W. R. Ford, 48, of 1841 North Oakland, was held up and robbed at her door last night by a bandit who forced her to open the door.

The robber made his escape before the matter could be reported to the police, and is still at large.

Mrs. Ford went to the police station at 10 o'clock last night and reported the robbery. She said she was alone at the time.

TICKET SCALPERS REAP RICH PROFIT

Southern Pacific Proceeds
Legally Against
Traffickers.

Defending itself against the activities and operations of an alleged band of ticket scalpers which, it is charged, has defrauded the trans-continental railroads out of thousands of dollars since February 1, the Southern Pacific Company has availed itself of the perpetual injunction it obtained from United States Judge Van Fleet in 1905 against all scalpers, and has injunctions served on four attaches of downtown hotels and one cigar man, all of whom, it is alleged, have been trafficking in tickets. More injunctions, it is declared, will follow those of yesterday. They will be directed at other alleged members of the scalpers' ring.

The alleged frauds were uncovered by the accounting department's secret service bureau, of which J. H. Sheehan is chief. According to Sheehan, the scalpers' organization included hotel porters, clerks, saloon and cigar men and the operators on sight-seeing cars in both San Francisco and Los Angeles.

"It is impossible to estimate the money out of which the railroads have been defrauded since the opening of the Exposition because of ticket-scalping, but it will run high into the thousands," said Sheehan today. "The operations of the scalpers were simple because the field was broad. A great many people who bought round-trip tickets from the East decided to remain here on arrival. The unused portions of their tickets were solicited and snapped up by the scalpers who, in turn, found a ready market for them again through the solicitation by the men on the rubber-neck wagons and hotel clerks and porters.

"One local hotel clerk has been making \$60 a month side money out of scalping. Others, judging from the scale of operations, have been making much more."

LIVES OF SWINE ARE SAVED BY HOG VIRUS

UNIVERSITY OF CALIFORNIA, April 27.—The University of California has been working on the problem of hog cholera for many years. It is now preparing and distributing serum and virus to prevent hog cholera.

Moreover, the lives of scores of thousands of other California hogs were saved by the spread of infection was checked and because of the campaign for disinfection and quarantine and better methods of fighting the spread of the disease which followed the inauguration of this important work by the university.

Nine times out of ten, declares the Agricultural Experiment Station, when a hog dies in California from cholera it dies from hog cholera. Unfortunately many swine-raises are loath to believe that it is cholera which affects their hogs, and by the time they are convinced most of the hogs have become infected.

The University urges hog-raises to remember this fact, that nine-tenths of the deaths of swine from disease are due to hog cholera, and that no well-developed case of cholera can be cured by inoculation, but that it is necessary to inoculate the hogs with the virus of the disease as soon as the disease breaks out in a herd. Immediate action is necessary if the well hogs are to be saved.

HERE IS SLOGAN; "DANCE WITH DR."

Amusing Complications to Be
Nursed at Arabian
Night's Ball.

Patient, Patient, give me your hand.
My how your pulse is beating!
Get up and dance—
You're ordered to dance—
Hurry, for time is fleeting!
—Modern medical prescription.

"Dance with your doctor"—that's the slogan society women of Oakland have adopted for the Red Cross-Arabian Nights ball which is expected to crowd the Auditorium Saturday evening, May 8, when the first great benefit ever staged there will be thrown open to a delighted public.

"Dance with your doctor" threatens to cause all sorts of amusing complications, for the women are taking it very seriously, and there are many handsome doctors with many handsome and wealthy patients, and, of course, they can't dance with all, nor can they very well refuse.

Practically every licensed physician in Alameda county has promised to attend the ball; every Florence Nightingale in Oakland that can be excused from duty that night will be there, and there will be several thousand of the social elite to give the affair a crowning touch of dignity and delightfulness.

Miss Augusta Sellander, president of the Alameda County Nurses' Association, is credited with having invented the novel slogan by which the staid and dignified physicians of the East Bay cities are to be coaxed into the labyrinth of Terpsichore.

Miss Sellander denies the gentle responsibility, but someone started it, and now the physicians are all chuckling good-humoredly, and practicing mysterious steps in secret.

The spectacle of a physician guiding his apparently patient through the maze, and solicitously protecting a dainty ankle from too severe a strain, should provide a novelty for even the jaded smart set.

There are plenty of dances and favorites of society among the medical profession.

Such well-known physicians as Dr. A. S. Kelly, Dr. Dudley Smith, Dr. W. S. Porter, Dr. Daniel Crosby, Mr. E. N. Ewer and many others would grace any ballroom, and are quite likely to prove the lions of the night.

Anyway, "Dance with your doctor" is a happy and clever thought.

COTTON EXPORTATION FORBIDDEN BY ENGLAND

By Associated Press.
LONDON April 27, 12:55 p. m.—The exportation of raw cotton from the United Kingdom was specifically prohibited in a special supplement to the Official Gazette issued today.

The prohibition covers all foreign parts in Europe and on the Mediterranean and Black Seas, except those of France, Russia, Spain and Portugal. Russian ports on the Baltic are included in the prohibited areas.

The demand of the British public for a specific prohibition against the exportation of cotton has been insistent, but the government heretofore has contended that the export has been prevented by the general blockade against Germany.

Suey Sing Tong Makes Peace With Rivals

Proclamations were posted up on the walls in the local Chinese quarter today, announcing the final settlement of the long war, which has existed between gunmen of the Suey Sings and the Suey Lings for the past several months. This means that all differences between the two bodies have been adjusted, and there will be no more murders over the present grievance.

According to local representatives, the papers have been signed by the heads of the Six Companies in San Francisco. Copies have been forwarded to all the tong societies on the Pacific coast.

LESADAL CLUB TO DANCE.

Lesadal Club's friends will be guests at a "hard times" dance on Wednesday evening, April 28, in St. Anthony's Hall, 1234 Broadway street and Sixteenth avenue. Special music has been engaged for the evening. J. Mariano, Al Rosen, P. Murphy, W. Mahoney, P. Connelley and G. Meade are the committee in charge.

Alarmed Over Freedom of Press Interviews

LONDON, April 27.—The Globe expresses alarm and regret at the freedom with which British statesmen and leaders are granting interviews to American and French newspapers. "We have already commented," urges the Globe, "on the extent to which foreign journalists are favored, at the expense of the British press, by our soldiers and politicians. The question is not merely of interest in news paper offices, but has a certain national importance."

"If the policy of the Press Bureau stifles frankness where it is called for, it might at least be expected that such a prohibition would be uniform, and that an article which the Censor imagines helpful to the enemy if it appears in an English paper will have no less sinister influence if printed in Paris or New York."

It appears, however, that counsels of reticence which are troubling when dealing with the English press may be relaxed when the speaker is talking for publication abroad, with the result that are exiled back again to this country. This is at best an illogical and undignified state of affairs.

Auditorium Benefit to Aid Civic Bodies

Another organization has been added to the long list of those which are to benefit by the performance of "Feet of Clay," the big musical extravaganza, to be offered at the Oakland Civic Auditorium Wednesday and Thursday, May 5 and 6. This is the South East Oakland Improvement Club, which has begun an active campaign to have a large theater party at the initial dramatic presentation in the new structure. The officers of the club are: J. J. Mugrew, president; A. H. McKown, first vice-president; W. G. Logan, second vice-president; N. P. West, treasurer; V. S. Northen, Paul Wayne, Dr. E. E. Salt, J. Blumet, and B. Hanley, executive committee.

The organization is for the purpose of securing needed improvements for the southeastern section of the city, and the money raised by this benefit will be applied to the work of development along these lines. Seats are on sale at Sherman & Clay's.

MARE ISLAND NOTES

MARE ISLAND, April 27.—Secretary of the Navy Daniels will not interfere with the Civil Service Department rulings in reference to mechanics and helpers who were given employment in the naval yard in which a Hindu was the bridegroom. The marriage was witnessed by Mr. and Mrs. Gordon of Oakland, relatives of the bride.

OROVILLE, April 27.—Lita Reece, an Indian girl from Intake, was brought to Oroville by Tru-Lion Officer C. S. Cline. Two of the sisters of the girl have died from lack of proper nourishment, and the officers were informed that unless something was done for the girl she would also go the way of her sisters. The girl, who is 12 years old, was found lying upon a blanket in the corner of a cabin by Probation Officer Cline.

Chief Machinist Mate W. L. Stansford attached to the navy yard yard Arapahoe, who was recently court-martialed at Mare Island for neglecting charge of being intoxicated while on duty, has been placed on six months' probation by order of Secretary of the Navy Daniels.

Passed Assistant Surgeon W. Boland, U. S. N. has been detached from duty on the parent ship Iris and will leave for his home at Mare Island. His place on the so-called "mother" ship will be filled by Assistant Surgeon H. M. Stenhouse, U. S. N.

Pay Director T. S. Jewett, U. S. N. and his pay clerk, G. W. Masterson, U. S. N., reported at Mare Island Monday to make an inspection of the pay department accounts.

The revenue cutter Bear, undergoing alterations, will leave Wednesday for the lower bay.

VALLEJO NOTES

VALLEJO, April 27.—The effects of the great European war are being felt in this vicinity as owing to the salmon market in the old world being ruined the fishermen have lost the greatest source of revenue for their catch.

The Sperry Flour mine of the Vallejo City baseball league defeated the Vallejo Independents here Sunday by a score of 2 to 1. The Marines of the same league took the Blanco & Keefe aggregation into camp on the same afternoon by a score of 10 to 6.

Improvements to the Good Templars' Home for Orphans ordered by the State Board of Control are nearing completion. When the work is completed Superintendent A. W. Bell will invite the residents of Vallejo to inspect the building.

Now that the Holy Name Socially team has defeated the Company B, League of the Cross Cadets, of San Francisco, by a score of 30 to 15, the boys from the Florida street court believe that they will take the Vallejo High School five into camp next Friday evening at the rink.

VALLEJO COUPLE WED.

VALLEJO, April 27.—At St. Dominic's church in San Francisco Monday morning Father Rice, formerly of Vallejo, officiated at the ceremony which united Thomas Lyon and Miss Ollie Nell of this city, the wedding being attended only by immediate relatives of the contracting parties. Thomas Horan acted as best man, while Miss Ruth Nell, sister of the bride, filled the position of bridesmaid. The groom is the son of George Lyon. The bride is the sister of Mrs. Daniel L. Horan.

BUSY POSTOFFICE.

SAN LEANDRO, April 27.—A letter left San Leandro for every state in the Union in one mail according to Postmaster M. J. Andrade. A considerable increase in the postoffice revenue over last year is reported by Andrade.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards' produced Olive Tablets, the substitute for calomel. Dr. Edwards, a practicing physician for 17 years, and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and found that Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No grilling is the "kernel" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown month" now and then—a bad breath—a dull, tired feeling—a bad taste in the liver and are constipated, you'll find quick, easy and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime.

Thousands take one or two every night just to keep bright. Try them. 10c and 25c per box. All druggists.

Stop stopping to foot bills

Self-Footing

In most offices bookkeepers write out bills and statements and then stop to foot and prove. Hereafter bills will be written and accurately footed at one operation—on one machine.

Self-Auditing

With the easy-running Remington Adding and Subtracting Typewriter the dollars and cents add mechanically—while they are being typed. Discounts are deducted automatically.

The total once typed is equivalent to an expert accountant's O.K. It must be correct.

Billing, Listing, Letter-Writing

The Remington Adding and Subtracting Typewriter is a complete easy-running typewriter for letter-writing.

Switch a lever and it is a rapid, absolutely-accurate adding machine.

But, most important, it simultaneously writes and adds on the same page.

20th Century Speed

Whenever you see a clerk stopping to foot bills or statements you can now say, "There is time being wasted." Stop this waste.

ANTI-KAMNIA TABLETS STOP
The Pains

of Sciatica

Dr. E. C. Underwood says that there is no expression of neuralgia which is more distressing than that known as Sciatica. The cause of this condition is usually exposure

to cold and dampness. One of the most common causes is rheumatism; indeed it is often the cause that comes to mind first in including sciatica among the varieties of rheumatism.

The treatment includes remedies to counteract the cause of the disease, as well as measures looking to the relief of pain.

Whatever treatment may be employed, two things must be borne in mind: the patient must be kept as free from pain as possible and be kept as quiet as possible. One or two Anti-Ramnia Tablets should be given every two or three hours, and the patient must be warned against going out in inclement weather.

Anti-Kamla Tablets may be obtained at all drug stores in any country. It is worth a try for A-K Tablets.

In Headache, Neuralgia, and all Pains they give prompt relief.

FASHION SHOW OF GAS RANGES THIS WEEK

Why A Gas Range Is Superior To A Hot Plate

The most efficient and economical cooking appliance is the one that will boil, bake, broil and roast the most with the least consumption of gas. Other points to be considered are convenience and ease of repair and cleaning.

The top burners on a modern gas range are made of a one-piece casting, with holes drilled in the top, throwing the flame upwards, and to the point where the best results will be obtained. Attached to these burners are air mixers, easily adjusted to the local pressure. The majority of burners on the cheap hot plates sold by dealers are constructed of two parts, cement being placed between and bolted together. But the cement soon burns out or drops off, leaving a leaky burner. The openings are on the edge instead of the top, as the range burners, throwing the flame toward the edge of the cooking utensil, cause a great waste of heat.

The air mixer on this appliance is of a type that requires a skilled mechanic to adjust, and any variation of pressure causes incomplete combustion and decreased efficiency. The simmering burner adds greatly to the economy of the range.

Some have the impression that economy is practiced by the use of the small portable oven, known as the gasoline oven, but this is a decidedly

false idea. The walls are made of thin material, throwing off a large amount of heat, and being placed over the round burners, which do not have the efficiency or even distribution of the long burners of a range. The door soon becomes sprung or warped, allowing the heat to escape, and the result is a cold side to the oven.

The broiler on the range is an economic feature, as it is used for broasting and broiling at the same time, baking is being done, with exactly the same amount of gas. However, the oven, like the simmering burner, is not found on the hot plate.

The gas range is made of the best material, built on scientific principles, while the hot plate sold by the ordinary dealer is made of light, inexpensive material, thrown together to supply a demand for something cheap. The unfortunate purchaser is deceiving himself when he considers the total cost after six months.

Nine out of ten hot plates are connected on the illuminating tubing by rubber tubing that will leak almost immediately. There are instances where this tubing has become either loosened or broken by accident, or increased pressure, causing danger and annoyance.

The cost of the hot plate, oven and tubing very rarely equal the cost of a good range, and the consumer has a miserable little old makeshift, instead of a modern range that would last ten or twelve years, and pay for itself over and over in the saving of fuel.

The home of the hot plate is in the laundry and industrial field, and should be recommended for such work.

Cleanliness of Gas Cooking

Any woman who has used a Gas Range in her kitchen will gladly testify to the ease with which it can be kept clean. The front is made of perfectly smooth cast iron, and the sides and back of smooth, polished steel, easily kept clean with a cloth.

The burners can be quickly lifted from place to allow of being cleaned, and when cleaned can be just as easily replaced. In fact, one of the most desirable features of modern Gas Ranges is that all parts can be easily removed for cleaning when necessary and can be easily put in place without any annoyance or difficulty whatever.

The oven is the crowning feature of a modern Gas Range. It is made large and square on the "Direct-Flue" plan, which saves gas, insures perfect circulation of the heat currents, and overcomes excessive bottom heat, so characteristic of other makes. There are no "dead corners" as the heat is caused to circulate around the sides and into the oven, until it reaches the top, where it is detained by return flue plates between the crown-sheet and top plates.

This plan of construction provides the most perfect baking oven ever installed in a gas range—one that bakes perfectly in the quickest time and with the least gas consumption. No danger or difficulty is experienced in lighting oven and broiler burners. These burners are of the two-line, one-piece type, which evenly distribute the heat over the entire base of the oven without carbonizing. On the standard type range five top burners are provided—a giant burner, three single burners and simmering burner.

On account of their scientific construction, modern gas ranges are the greatest gas savers.

Thousands of housewives can testify to the efficiency of gas for cooking. Its cleanliness, economy and easy control make it vastly superior to other fuels.

It lightens the burdens of housekeeping and changes kitchen drudgery into real pleasure in every home where it is used.

Gas For Baking—Quickest and Best Way

TO BE SHUT up with a fiery hot range that takes a whole lot of time to get ready—and a great deal more to be fired continually—is not a pleasure to anticipate, and is what makes baking day dreaded. But where gas is used all is different. Baking day comes and goes like any other day. Strike a match—turn a valve—and seven minutes after the oven is ready. Not too hot nor too cold—just right to bake evenly and thoroughly, and make light and flaky bread, cakes and pastry.

With gas, stove worry is out of the question. Your whole time can be given to the baking. You don't have to bother leaving your work to get fuel to throw into the fire or watch the draft.

Just regulate a valve—nothing more—and you can have a slow or quick baking oven at will. High winds or sluggish drafts make no difference—a gas range does not depend upon the weather to give perfect results.

When you have finished baking you will realize that you have saved one-third of the time—and that you are not at all dragged out because of being subjected to vibrating heat.

Thousands of housewives can testify to the efficiency of gas for baking. Its cleanliness, economy and easy control makes it vastly superior to other fuels.

Points On Economy in Usage of Gas

DON'T LIGHT the gas and then peel potatoes. Peel the potatoes and then light the gas.

Don't let the kettle boil over on a large burner. Bring it to a boil and then remove it to the simmering burner.

Don't keep the gas turned on after you are through cooking. Turn off both oven burners 5 or 10 minutes before taking bread out of oven. The heat in the oven will finish the baking.

Both ovens are heated with one set of burners. If you are roasting,

bring your vegetables to a boil on the top burners, and then set them on the floor of the top oven. If you are baking, put a pan of water in the broiling oven and you will have hot water for dish washing.

Don't turn on more burners than you need—this applies especially to the ovens.

Remember that a roast, bread or anything cooked in a gas oven loses less in weight than when cooked in a coal stove.

In cooking vegetables use a kettle with a tight-fitting cover. They will cook quicker and with less water than in an open vessel.

Come to Breuner's Gas Cooking Exhibition

Our entire show window frontage is devoted this "Gas Range Week" to an interesting demonstration of the science of cooking by gas. The BREUNER-WEDGEWOOD LINE, which, we believe, represents the very farthest advance in gas cooking machines, will be demonstrated by EFFICIENT COOKS, whose experience and advice will be at your service and the results of their work (Biscuits, Bread, Cakes, Pies, Etc.), will be yours to taste and test FREE OF CHARGE.

Trade in Your Old Stove for the Modern "Breuner-Wedgewood"

A telephone will bring our stove man to your home—he will tell you how much your old stove is worth, how much we will allow you for it on the purchase of a new "Breuner-Wedgewood."

"Breuner-Wedgewoods" are the ONLY Gas Ranges adapted to the peculiar climatic conditions of the bay cities and they are built right here in California.

"ARMCO," the newly discovered rust-resisting iron, is used in "Breuner-Wedgewoods." This metal is unequalled for durability. Sold on thirty days' trial.

The SANITARY WHITE ENAMELED parts are delightfully clean looking and can be washed as easily as a china dish.

"Breuner-Wedgewoods" are simple and easy to operate and use an amazingly small amount of gas.

Prices range from \$12.00 to \$61.50. Terms, \$5.00 down—\$1.00 a week.

FREE IF HE AVOIDS SALOON Boy, Refused at Reformatory, Is Released

A soft-hearted judge, a kindly prosecutor and a sympathetic assistant probation officer saved Miller T. Moon, a 15-year-old boy, from the disgrace of serving a term in prison this morning. Instead of being a convict, Moon will return to the home of his parents, secure a position and remain on probation for five years.

DOCTOR KNOWS MORE ABOUT DIVORCE NOW

Dr. Fred A. Steel of this city found out late yesterday afternoon that he did not know as much about the divorce laws as he thought he did, when his second wife, Sadie R. Steel, was granted a marriage annulment by Judge Donahue. It was on Steel's testimony that the annulment was granted. Dr. Steel secured an interlocutory decree of divorce from his first wife in 1912. This was in San Diego. In September, 1914, he crossed the state line, went to Reno and married Miss Sadie R. Mallon. The marital experience was unsatisfactory to the second Mrs. Steel, and, learning of the first Mrs. Steel, she sued for an annulment. Dr. Steel testified that he had not secured a final decree from his first wife, thinking that it was unnecessary in Nevada.

Wilhelmina Woodruff yesterday filed a cross complaint against Dr. Charles Homer Woodruff of Richmond, alleging that he had bought her no clothes for thirteen months; that he had been cruel to her, and that he had been intimate with two women, Anna Thomas and Mrs. Hicks.

Emma Hackett filed suit against Samuel M. Hackett, alleging that he deserted her seven years ago. Robert B. Mitchell also alleges desertion in his suit against Ina L. Mitchell. Rose G. Milton was granted an interlocutory decree of divorce from Jewel H. Milton on allegations of cruelty. Suit was filed today by Mary C. Cornwell against William H. Cornwell, alleging desertion.

SIX MUST SERVE FOR CUSTOM FRAUD

U. S. Supreme Court Upholds Decree in Judge Dooling's Department.

SAN FRANCISCO, April 27.—Six former customs inspectors of this city, and a Chinese alleged to have been in league with them, will have to serve time in the Alameda county jail for smuggling opium as the result of a writ of mandamus received here today from Washington.

The ring was shaken up in the latter part of 1913 when nearly twenty customs guards and civilians were taken into custody.

Federal Judge Dooling held the trial, and an appeal was taken to the eight cases to the United States supreme court. That tribunal has upheld the district court, the order which makes it necessary for the accused to go to prison being received only today.

Those who must serve, and their terms are:

R. R. Vargas, one year; See Koo Tong, one year; J. J. Drolan and R. B. Hall, eight months; E. J. Gallagher and P. W. Craigie, six months.

A stay of execution was granted until June 1 in the case of E. Ellison, who has been very ill at his home here.

ENGLISH SHIP OWNERS MAKING HUGE PROFITS

By Associated Press.
LONDON, April 27.—Several large English ship-owners are piling up profits at the rate of \$500,000 or over a month, and one firm at least is reported to have averaged practically a million dollars a month since the beginning of the war.

It is, of course, only those who have had their ships free who have been able to make money. Some owners had their vessels tied up by charters at normal figures and others had their ships taken by the Government. Then all the ship-owners have had to bear increased expenditures for wages, fuel, insurance and delays in port.

The people who are really making the money, according to a London shipping journal, are the Greek shipowners. "For the last few years," it explains, "the Greeks have been steadily buying ships, and they now have a very considerable merchant marine. They can take full advantage of the high rates, and do not have to face the risks British shippers do, nor pay the extra wages."

EUROPEAN NEUTRALS SOUGHT BIG WARSHIP

By Associated Press.
NEW YORK, April 27.—The Argentine government, it became known here tonight, recently has refused offers from European countries to purchase of the superdreadnaught Moreno, which was built at Camden, N. J., and which is to sail for the South American republic tomorrow.

One offer, it is said, came from Greece, the bid being about \$17,500,000. It is understood that the Italian government also tried to buy the battleship. The Moreno, one of the largest warships afloat, was built at a cost of \$12,000,000, but a possible profit of \$5,000,000 failed to influence Argentina.

Manuel A. Molina, acting consul for Argentina here, confirmed the reported overtures for the purchase of the warship.

OUTLET OF PACKERS' SEWER TO BE CHANGED

ALAMEDA, April 27.—The changing of the outlet of the north side sewer, from the Alameda Packers' association basin to the harbor channel, is in a fair way to consummation. A meeting of the street committee of the council, Councilman William Hammond Jr., chairman, and representatives of the packers, was held Sunday and the matter discussed. The work is to cost about \$10,000.

Arrangements will be made within a few days for the preliminary procedure. The sewer, the packers claim, is a menace to health of the employees, emptying as it does in the basin where the ships are.

SWIMMER POMEROY SERIOUSLY HURT

Title Holder Fighting for Life as Result of Auto Accident.

SAN FRANCISCO, April 27.—Lying at St. Luke's hospital with a basal fracture of the skull, and with the physicians deeming it best not to operate, Walter Pomeroy, member of the Olympic club and holder of world's records in long-distance swimming, is fighting for his life this morning. Since he and three companions were injured in an automobile accident in Golden Gate park last night, the athlete has been unconscious. He was no better when examined by the attending physicians this morning and grave fears are entertained for his recovery.

GRAVE FEARS FOR LIFE.
Dr. Alanson Weeks, who is attending Pomeroy, declared that the case was more than serious, and that unless the young man's mind cleared, or other evidences of a hopeful nature developed, that an attempt to operate upon him would be hopeless. The accident occurred on the main road in Golden Gate park, near the Great Highway. The big automobile in which the party was riding turned turtle when the steering gear failed to work. The others injured besides Pomeroy were Miss Cora Pomeroy, his sister, broken right arm; Miss Fanette A. Decker, Hotel Henry, 106 Sixth street, lacerations and cuts of the face and body; and Arthur T. Shand, 188 Grove street, bruises and abrasions of the body and a cut on the scalp.

The two young women were taken to the French hospital and the man to the Park Emergency hospital. Friends summoned Dr. Weeks, who, on examining Pomeroy, ordered him immediately transferred to St. Luke's hospital.

CAR STRIKES BOULDER.
The car was going at a moderate speed and was being driven by Shand, when something went wrong with the steering gear. The car turned and struck a boulder. Pomeroy was hurled head foremost against the side of the car and the others were pitched about in the overturned car. They finally managed to extricate themselves and Shand phoned both hospitals.

Pomeroy, on September 18, 1911, swam across the bay from Lombard street pier to Lone Wharf, Oakland, in two hours, three minutes and twenty-nine seconds against an adverse tide.

He has taken part in Olympic club athletics for several years, and is one of the foremost swimmers on the Pacific coast.

POLICE BAR FILM OF NAKED TRUTH

Margaret Edwards' Reels Taken in San Jose as Court Exhibit.

SAN JOSE, April 27.—The photo-play film of "Hypocrites" featuring the "California Venus"—Margaret Edwards—in the nude, and which was seized on a search warrant amid a storm of cheers and hisses at the De Luxe theater last night, is being shown as evidence to a jury this afternoon at the trial of William F. Hanell, resident manager of a local theater.

Hanell is charged with a city misdemeanor in refusing to comply with a suppression order of the local board of censorship, which contends the play is not conducive to moral welfare of the city. Hanell is making no attempt to test out the validity of the local ordinance, but believes that the police board has misconstrued the law. In a statement given out to the Oakland Tribune correspondent he declared that it is no public offense to display pictures of people in the nude, provided such pictures are not harmful to public morals, while the police board asserts that any display of pictures of nude persons constitutes a violation of the city ordinance.

After viewing the photo-play yesterday afternoon the board of police and fire commissioners unanimously decided that a public display of the nude picture of Miss Edwards is a violation of a local ordinance and they served the management with a notice to eliminate those parts of the reels showing the unclothed figure of the "perfect woman." When this notice was ignored Hanell was arrested, pleaded not guilty and demanded a jury trial.

GO ON SHOWING FILM.
In spite of this action the theater continued preservation of the photoplay and last night people stormed the house and filled every seat. A search warrant was then obtained and a half dozen officers entered the operating room of the theater in quest of the photoplay which they had ascertained was in three reels.

Hanell and his attorneys at first absolutely refused to aid the police in their quest and aroused considerable trepidation on the officers' part by informing them that they would hold the city responsible if there should be a terrific explosion through unskilled handling of a "hot film." The police were advised to let the reels "cool" and then take them away in the morning.

It was not until they threatened to cart away all of the films in the theater that the theatrical men came to the assistance of the police, confessed their role and turned over the desired evidence.

As the officers walked out of the playhouse the audience seemed to be about evenly divided in hissing and cheering.

It is stated that "Hypocrites" was approved in San Francisco, Oakland, Berkeley and Sacramento, although it is reported that it was condemned in Los Angeles.

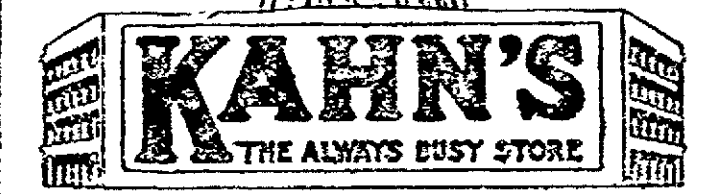

PLANS FOR WAR ARE LAUNCHED IN CHINA
WASHINGTON, April 27.—The Japanese government has given to Great Britain a detailed explanation of the demands made upon China, which, according to information obtainable here, is said to have relieved apprehension in London as to the scope of the Japanese policy in China.

The report today from Peking that the conferences had been resumed and that Japan now had presented twenty-four demands, including the twenty-one originally made, was received with much interest in Washington, but officials had no advice from the Chinese capital.

China is making military preparations to meet the war, which, it is generally agreed, will result if Japan's demands are rejected.

IS YOUR STOMACH ONLY A SIEVE?

Is it performing its functions along with the kidneys, liver and bowels, so that all are in perfect harmony? Is it doing this, or is it allowing your food to remain partly undigested, sending poisons through the body, causing distress after eating, indigestion, headache, whirling noises in the head, loss of flesh and sallow complexion?

Does the fact that your kidneys are not working properly cause you intense pain in answering the more frequent calls of nature? Is your urine highly colored? If so, you must do something immediately.

Over in Holland the sturdy natives keep GOLD MEDAL Haarlem Oil Capsules in the house at all times and take one before every meal and one at bed time, at the first sign of an ache or pain. They have been doing it for more than 200 years. So generally is this medicine known there that it is called THE NATIONAL REMEDY OF HOLLAND.

It is made at the ancient laboratories in Haarlem, Holland, by the Genuine Haarlem Oil Mfg. Co., where it has been manufactured since 1696. Her Majesty, Wilhelmina, Queen of the Netherlands, granted a charter to the company as successors to G. DE Koning Thijl, recognizing it as the original company. Operation Not Needed

Mrs. W. A. Barnes, who lives in Ballard, Calif., has sent to the Pine Laboratories a very strong endorsement of Fruitola and Traxo. In her letter, Mrs. Barnes says:

"Doctors say gall-stones cannot be cured without an operation, costing much money as well as unnecessary suffering. I am cured, I know, and this is proof positive, and my friends know that such is the case."

Fruitola is a powerful lubricant for the intestinal organs, softening the hardened particles that cause so much suffering and expelling the congested waste in an easy, natural manner. A single dose is usually sufficient to clearly indicate its efficacy. Traxo is a splendid tonic alternative that acts on the liver and kidneys, stimulates the flow of gastric juices, to aid digestion, and removes bile from the general circulation. Traxo should be taken three or four times a day following a dose of Fruitola to strengthen and restore the weakened, run-down system.

For the convenience of the public, arrangements have been made to supply Fruitola and Traxo through leading drug stores. In Oakland they can be obtained at the store of The Owl Drug Co.

CHARLTON TRIAL DUE IN AUTUMN

Charged With Murdering Wife,
Counsel for American
Discusses Case.

By Associated Press.
ROME, Italy, April 27.—Although July next will mark the lapse of five years since Porter Charlton was arrested on the charge of murdering his wife in Italy, the case, it is learned, will not come to trial before autumn, if by then.

His counsel, Avvocato Cattaneo, recently discussing the present delay, said: "There are two reasons for the delay. The examination of the witnesses in America and the observations which are being taken of the present mental condition at the asylum for the insane at Como."

"As Charlton has not the means to bring over any of his witnesses for the trial, they all had to have their testimony taken at home, which was a complicated process, conducted through the Departments of Justice and Foreign Affairs both Italian and American. If Charlton could have been brought here, the probability of his being judged at the Assize without one witness for the defense present."

"Instead, the testimony of the fourteen witnesses in the United States will be read, the testimony being of great importance, giving the defense assumed, which is the total irresponsibility of the accused. The investigations cannot be closed, and therefore be made public until the experiments to establish whether Charlton is insane have been given in May. Thus in June, or at the latest in July, the decision will be given out, so that the trial can come on in the early autumn."

Avvocato Cattaneo, however, said that this was not at all sure, as should Italy be at war the trial would surely take place.

"You see," he continued, "Como is a frontier town, and in case of war even the courts of justice will be upset. Charlton knows this and has not shown any great concern. He seems to be resigned to his position and thinks he will ultimately be released, meanwhile he is allowed all the physical exercises, to which he is so greatly attached, that he desires."

To the question why Charlton had taken his case out of the hands of Deputy Porzio, Avvocato Cattaneo replied: "It cannot be said that the case has been taken from him; the deputy is very much occupied and gave it up voluntarily, as he could not devote sufficient time to it, and it is quite possible that he may deliver the final harangue. It has been said that the Charlton family were much disgusted at the time waited over the time-taking of the testimony in America, and that Deputy Porzio, as a member of parliament, did not hurry up matters as he might have done, but this is not so, as the fault lies entirely in our procedure; an enormous fault."

"The counsel for the defense will be two, Avvocato Cattaneo of Como and myself, Avvocato Palmieri of New York, who is cognizant of everything, will come to Italy for the trial."

"I expect that the trial will be short, especially as all the testimony for the defense will be read, while only a few people of Meltrasso, where the murder took place, will be heard, so that time will only be consumed hearing the witness, Captain Scott, brother of the victim, and in the discussion of the experts on sanity and in my address to the jury."

STATE GAMERS COIN.

SACRAMENTO, April 27.—The state is gathering in all its available resources. Yesterday, in compliance with a request from State Controller John S. Chambers, Attorney General Webb interpreted the law which makes it possible for Chambers to collect all escheated estates or those which have funds remaining in the banks, state or national, for twenty years.

UNCLE SAM WAXES FAT ON INCOMES

More Than \$80,000,000 Collected by Federal Officials.

By Associated Press.
WASHINGTON, April 27.—Administration officials were optimistic today over prospects that the income tax this year will yield an amount considerably in excess of the original estimate of \$80,000,000.

This optimism was based upon full preliminary estimates that the treasury department from internal revenue collectors throughout the country, which placed the sum to be collected from the individual and corporation tax at \$80,000,000.

Officials are confident, however, that the returns will exceed that sum by several millions. This is highly gratifying to them, because it has been predicted that the European war and the tariff would operate to prevent a large return.

If the estimate is borne out, the prospective issue of Panama canal bonds to swell the slowly sinking general fund of the treasury may be delayed longer than had been expected.

While prospects are that the yield from corporations will not come up to expectations, this loss will be more than overcome by returns from individuals. It is believed that the warning by treasury officials that they would pursue those suspected of tax dodging has had the effect of increasing the number of individual taxables this year over last, when there were 357,940 persons who paid.

PUT STOMACH IN FINE CONDITION

Says Indigestion Results from
an Excess of Hydrochloric
Acid.

Indigested food delayed in the stomach decays, or rather, ferments the same as food left in the open air, says a noted authority. He also tells us that indigestion is caused by Hyper-acidity, meaning, there is an excess of hydro-chloric acid in the stomach which prevents complete digestion and starts food fermentation. Thus everything eaten sores in the stomach much like garbage sores in a can, forming acid fluids and gases, which inflate the stomach like a toy balloon. Then we feel a heavy, lumpy misery in the chest, we belch up gas, we eructate sour food or have heartburn, flatulence, water-brash or nausea.

He tells us to lay aside all digestive aids and instead get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast and drink while it is effervescent, and, further more, to continue this for a week. While relief follows the first dose, it is important to neutralize the acidity, remove the gas-making mucus, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salt is used by thousands of people for stomach trouble with excellent results.—Advertisement.

FIFTY TRIPS TO YOSEMITE
ONE HUNDRED TRIPS TO SANTA CRUZ BEACHES
FIVE HUNDRED TRIPS TO TAMALPAIS
FIVE THOUSAND EXPOSITION TRIPS

The list of candidates will appear for the first time in next Sunday's TRIBUNE, and at that time we will consider the contest fairly begun. At present it is only getting under way, and these first moments can be of great value to you if you make the most of them.

While it is advisable to start to work at the very first moment possible, in order to run no risk of any subscription escaping, it is really important to have your name on the first printed list. In this way you can announce your candidacy to more people than you can reach in any other way, and it is an important matter for every one whom you know to see that you are among those who wish to win one of the many splendid travel prizes THE TRIBUNE is offering.

As soon as the list comes out TRIBUNE readers everywhere will begin to select those whom they intend to support during the vacation campaign. You certainly know many who, on seeing your name, will say: "There's the person I would like to see win. I'll do my best for him or her."

LIST NOT FINAL

The list you will see on Sunday is not final in any sense of the word. In the first place, there are always a lot of people who are always in a hurry to do the right thing and the interesting thing, but who lack the staying power to stick until the end. These will drop out from time to time, leaving the field open for those who, for one reason or another, have postponed entering the contest.

Most of the later entries will be formidable, because they have considered the subject seriously and decided that in order to win a big prize they must do unusually good work. It is perfectly possible to enter late in THE TRIBUNE CONTEST and make a brilliantly successful campaign. We want to impress upon you, however, that it is EASIER TO SUCCEED if you enter your name early.

WHAT THE LIST STANDS FOR

Though the printed list will contain some names which will later be dropped on account of lack of perseverance of those who overestimated their staying qualities, yet it will be, on the whole, a representative list and will stand for lots of pluck, intelligence, popularity and hustle.

Within the bounds of human capacity we can assure you that these qualities will decide the winners, and if you feel that you are the possessor of them, you are doing yourself a great injustice if you stay out of the contest. If you lack any one of these traits, there is no better school in which you can learn them than in the friendly, lively, spicy rivalry of the contest.

WHEN THE LIST APPEARS

It would be fun to get a peep behind the scenes when the first list appears next Sunday. You would see many a loyal friend scanning the page in the hopes of finding a well-loved name. You would hear many an exclamation: "Why, if there isn't my old friend so and so. You bet it won't be my fault if he don't get that eight-cylinder Cadillac." "Well, well, here's pretty Miss Blank from our town. We'll all have to boost her through and let them know that this burg is on the map." "Come on, boys, let's get together and see that Inez wins. She can have my subscription today."

Yes, indeed, she can have it IF SHE COMES FOR IT. You will find plenty of good will, but people very rightly think that if you want their subscription you can take the trouble to ask for it. The best way is to see your friends face to face, but if that cannot be accomplished you should promptly communicate with them by phone or letter. At least get their promise to save their subscription for you until you have the opportunity of reaching them. Let them know that you expect their help. If you can get an appointment to see others through your friends, so much the better. When they find you are out to win they will even try to interest their friends to get subscriptions in your behalf.

ORGANIZATION A BIG HELP

In every business organization is a great help. In fact, some affairs are so well organized that the owner has no worries whatever because of the efficiency of his plans. This is no less so in a contest. Get your nearest friends together and explain to them that you want their views and suggestions for getting the largest number of subscriptions possible. They will be glad to help you.

KEEP YOUR CAMPAIGN LIVELY

Keep these good friends of yours enthusiastic. Never let them or yourself admit the possibility of failure to get the biggest prize. Be sure of success. This begets a confidence that is contagious and will secure many a subscription. You know how. If you do less today, make up your mind to do better tomorrow. Get at it and KEEP EVERLASTINGLY AT IT.

WELL-KNOWN CANDIDATES

Although the nominations have been open but a short time, we are proud of the list we are securing. People from all walks of life have entered to try for the many vacations, the ocean voyage, and the big automobile.

Success depends entirely upon the energy, good nature and personal popularity of each candidate.

This shows you that SUCCESS depends upon yourself. We welcome you to the ranks of the hustling candidates. No loafers wanted. Your joining the ranks means that you have the right metal and that you will ring true under the test of time.

SEND IN YOUR NOMINATION TODAY. SO YOUR NAME MAY APPEAR WITH THE FIRST PUBLISHED LIST.

We want your name at once if you intend to be among the big list of prize winners. Just think, there are FIVE THOUSAND SIX HUNDRED AND EIGHTY-EIGHT TRAVEL PRIZES TO BE WON and only two hundred contestants have made a start.

THERE IS PLENTY OF ROOM

Will you not fill in the nomination blank below and get into the race right now at the beginning? Fill in your name carefully and mail it at once to Contest Editor, OAKLAND TRIBUNE.

Kaiser Wants Us To Stop Selling Arms To Allies

A full account of Germany's official protest against the sale of arms to the Allies by United States manufacturers, including the graphic presentation of public opinion upon the protest, as expressed in the American newspapers, is given in this week's issue of THE LITERARY DIGEST, dated April 24th. Every important fact in this critical development is shown.

Italy's Waiting Game

The Future of Constantinople

Growing German Bitterness Against America

—the reader also comes into close view of these other important phases in the great war-game. In fact no other publication gives such an unbiased and satisfactory week-by-week history of the war as does THE LITERARY DIGEST.

Secretary Daniels Under Fire

Political Corruption in Terre Haute

Treasury Department Charged with Conspiracy

Federal Aid in the War on the Drug Evil

Princeton's Thrust at Billy Sunday

are intensely interesting subjects that are also treated in a comprehensive fashion in this number.

HON. BRAND WHITLOCK, U. S. Minister to Belgium:

"I have taken THE LITERARY DIGEST for a great many years and I should not like to be without it. I think it is invaluable to one who wishes to know what is going on in the world, and it gives, I think, with quite as much of the impersonal feeling as is possible to human beings both sides of every question."

Men and women who read THE LITERARY DIGEST take an intelligent and authoritative part in any conversation anywhere. COLOR SCENE FOR BALL IS PERFECT

Loie Fuller's Spectacular Ballet to Hold Closing Rehearsal Thursday.

Two thousand tickets for the ball of a thousand colors have been sold.

Fifty-eight boxes have been reserved.

In order to accommodate the many parties wishing boxes, the ball committee will install a number of boxes on the stage.

With the "Ball of a Thousand Colors" commemorating the completion of Oakland's half-million-dollar auditorium only three days distant and with the entire city preparing for the big event, enthusiasm is reaching a climax.

Preparations for the great dance, which will be a combination of musical extravaganza, pageantry, a dance and celebration by all Alameda county, are announced to be almost complete.

Rehearsals for the big pageant, directed by La Loie Fuller, famous dancer, have brought perfection. The dress rehearsal will be held in the Auditorium Thursday night.

Details for the opening of the ball have been arranged to include a unique grand march. A heavy detail of police in dress uniform will be first upon the floor. The police will be followed by a drill of Battery B.

POLICE TO LEAD MARCH.

While the two big military bands stationed in the end of the big Auditorium strike up an air the police will march the entire length. They will then disperse and station themselves throughout the building.

The "Vision of the Ancient Empire," a classic Greek dance, by the prettiest and daintiest dancer of Oakland's Greek colony—Miss Dorothy Panlaniak—is one of the latest additions to the spectacular pageant.

Partly in the extreme Miss Panlaniak is declared to be one of the cleverest young dancers in the city. She is known as the "pet" of the local Greek colony and has demonstrated her cleverness at several notable functions.

Miss Beatrice Garner, the poster beauty, will be escorted into the commemoration ball by a special police detail as the "royal guest."

OTHERS ARE STILL ACTIVE.

While the Auditorium ball committee is rapidly rounding out the final details for the big dance that will mark the first of the Auditorium's activities, Manager L. W. Buckley, the playground commission and other organizations are arranging the remainder of the Auditorium program.

The Children's Day, Saturday, in which the school children will participate in the flag drills, folk dances and other features, the Sunday chorus and the other features are well in hand. Rehearsals were held today at the Pease pavilion by the school children, and these will continue, under the direction of the playground authorities, until the opening of the celebration.

Carpenters started work today on the installation of the new motion picture stage of the Auditorium proper for the dance all boxes being disposed of at the present time. Decorators will tomorrow start work on the decking of the boxes, elaborate decorations to be placed throughout the great dance hall.

Several contestants have already registered for the "Charlie Chaplin Contest," a prize having been offered by the committee for the best impersonation of the noted motion picture star on the floor. Chaplin and G. M. Anderson, head of the Western Essanay Film Company, will be the judges of this contest.

REFUSES TO RESTRAIN ELECTION APPOINTMENTS

Judge Donahue yesterday refused to restrain from appointing Mayor Frank E. Mott and the members of the city council from appointing as election officers men and women who serve in precincts other than those in which they reside, declaring that he could not invoke the law to stop the administrative body from doing something it had not yet started to do.

The restraining order was asked by Fred A. Cooley, a John L. Davis supporter, who lives at 1444 East Thirtieth street. Cooley announced after the decision was rendered that an amended petition would be filed, bearing the names of the alleged objectionable ones said to be slated for appointment.

SEVEN COLORS WHITE? NOT ALWAYS! DANCE WILL DEVELOP A THOUSAND

Pretty Girls to Whirl Amid Beams of Searchlight

"Seven colors, white, make white light."

This rule, the secret of the spectrum, has a new application. Through it, Electrician B. F. Gavica, in charge of the electrical effects for the "Dance of a Thousand Colors," to open the Auditorium April 30, has discovered a new light. Seven kinds of white light, or light through seven different conductors of illumination, made of a fine glass in an apparatus of his invention, has created a lighting effect of literally a thousand colors, and the new invention, which will be seen for the first time at the auditorium, is hailed by stage electricians as one of the most remarkable effects ever devised.

A great searchlight is the basis of the illusion. Before this are prismatic strips of glass, through which the light passes, to break up into hundreds of colored

rays, the original white light, "separated" into its component colors, being further affected by colored screens which blend with them.

This remarkable effect is to be played on the Auditorium building on the night of the big ball, and a great beam from one of the searchlights will be sent from the roof of the building to the city hall tower.

The new "rainbow illusions" will also be used on the girl dancers on the floor of the Auditorium during Loie Fuller's spectacle, a great battery of lights having been placed in the building for the purpose. The dancers have perfected themselves in the evolutions and dress rehearsals are completing the lighting plans. Among the notable Oakland

dancers to appear in the great offering are Miss Ruth Ensign, Miss Genevieve Harpending, Miss Hazel Van Haltern and more than 100 others.

CAMERA MAN GETS MORE MAIL RICHMOND PRIZES ARE AWARDED

(BY THE CAMERA MAN.)

Two more demands for pictures came in this morning to greet me the first thing when I opened my darkroom. Allen Easton wrote the first, asking me to pay a call to the Cole school, and the second came from Gertrude Anderson, who asks that I visit Eighth-street avenue, Elm-street. Needless to say I'll be at both those places soon. I always do as I'm told—that is if I can do so. I couldn't go to Europe—or anything like that!

I got some more letters, too! They were from some of the boys and girls I took pictures of in Richmond, and it's such a long way into Oakland they wrote enclosing their pictures for their passes. Now, when boys and girls live a long distance away that is a very good plan—but in that case, boys and girls, always put your name in the letter. I have to know whether you're twelve years old or not!

This week I've taken dozens of pictures already and next Sunday's TRIBUNE will see one of the biggest collections of exposition pictures for the boys and girls since the contest opened. Be sure and see whether you were in last Sunday's TRIBUNE, boys and girls, for remember! Every boy and girl identifying his or her picture gets a free trip to the exposition. Look carefully!

In the meantime clip the coupon for the week's series is good for a ticket to the "101 Ranch" Wild West show, and if you're in the travel contest just keep plugging. Boys and girls, there's still opportunity to get into that contest if you haven't done so yet, and you really should do it. There are so many good things to win, have an opportunity to win! Don't miss it!

Today I'm taking pictures in the annexed district and later I'm going to snap a few in Berkeley. I'm going into other towns in the county, too, very soon. Watch for me!

Grand Jury Praises S. F. Police Force

SAN FRANCISCO, April 27.—The police committee of the grand jury, in a communication to the board of police commissioners and Chief D. A. White, this morning commended the personnel, condition and discipline of the force, and declared that conditions on the Barbary Coast were more quiet and orderly than ever before.

The letter praises the manner in which the police are handling the dives on Pacific street, and the grand jurors put themselves on record as saying that they found no violations of the law or the rules of the commission. The jury made a tour of the coast in order to satisfy its members as to truth of reports that a lawless condition of affairs was prevalent in the meanest, talked-of and world-celebrated section of San Francisco.

Successful Invention, of Interest to All Eyeglass Wearers

Fundamental Principles of Double-Vision Lenses Discovered.

The fundamental principles of perfect double-vision glasses have at last been discovered. First, there must be no color distortion in the lenses; second, they must be made from one piece of clear, hard optical glass; third, they must have the appearance of regular glasses. All of these requirements are embodied in the new lenses called "Calce One-piece Bifocals," which will be appreciated by those who have worn the old-style bifocals. Reading and distance corrections are combined in one single lens, making two pairs of glasses unnecessary. Ground only at the three establishments of the California Optical Company, which are exclusive agents, at 1221 Broadway, Oakland, and 151 Post street, 508 Mission street, San Francisco—Advertisement.

SUNOL FACES DESTRUCTION BY FIRE

Mysterious Blaze Threatens to Wipe Out Entire Town.

SUNOL, April 27.—A disastrous fire of mysterious origin burned down a section of this principal town, lines in Sunol at 3 o'clock this morning, causing \$11,000 damage. The premises burned down include a large grain warehouse owned by William Day, the general merchandise store of Trammellham Bros. and the blacksmith shop of Frank Harrington. There is no fire department in Sunol and the residents were unable to communicate with the nearest fire department at Pleasanton. Consequently the fire burned itself out and there was danger for a time of its spreading to neighboring wooden buildings.

The blaze, which apparently broke out in the grain warehouse, which was stocked with grain and farm implements, was noticed by a neighbor of Day, who owns all the buildings destroyed. By the time of the discovery the flames had made such headway that all attempts of the residents to cope with them without adequate fire-fighting apparatus, were fruitless. Within a few minutes the fire spread to the two adjacent buildings, which also were gutted. The damage is partly covered by insurance.

There is no clue as to the origin of the fire. The warehouse was securely locked at closing time last night and it is thought improbable that tramps made their way in and ignited the building.

WHY CALIFORNIA WAS NOT CHOSEN AS EDEN

"California has grown superb flowers ever since creation. Following that event, the local growth of plants was observed to be so fine that California was among the sites proposed for the Garden of Eden. Other considerations were, however, against it. It had been decided that the course of empire should move with the sun—westward. To secure westward movement of a race of beings planted on the west coast of a continent would necessitate the creation of creatures with an original aspiration for fins rather than for wings, which would change the plans for a birthplace for the human race from a garden into an aquarium. Because of such difficulties, California was not chosen for the Garden of Eden, and a less beautiful site in Asia was decided upon, since men could trail out in all directions from their birthplace, and having circled around enough to test their legs, finally strike out upon the great pedestrian excursion which led stragglers to the shores of narrower oceans which they could conveniently cross, while the great central movement westward though Europe had an open course upon dry land. Those who had zealously advocated California as a site for the garden consoled themselves with the reflection that after all it is not what is given to a man at the beginning, but what he finds for himself that satisfies him. The wisdom of this thought now clearly appears. The race has proved so forgetful of Eden that no one knows now exactly where it was, while California stands clearly in the eyes of the world as the point most desirable to attain for the fullest joys of living."

CAMPUS HAILS DISCOVERY OF HUMORIST

BERKELEY, April 27.—Who attempts to apply to Edward J. Wickson, emeritus professor of agriculture of the University of California, the general rule that scientists are stolid and serious-minded folk, makes a grave mistake. Wickson has arisen in the midst of his campus friends within recent months, not only as an agriculturist and horticulturist of ability, which they all knew, but as a humorist as well, which was news to many of them.

Wickson is the author of a volume just printed on "California Flower Gardens," and so far does it depart from the ordinary work on scientific subjects as to be really a work of literature as well. More than that, it offers proof of Wickson's eligibility to the society of wits of America.

Not with a definite effort at humor has Wickson composed his volume, but it has sort of spilled out of him unconsciously. He speaks of improving soils and says to apply lime toward this end "just after digging, because it can then be two with only danger of burning the eyes, and not both eyes and feet."

But Professor Wickson does much better than that in his volume. His introduction is a facetious treatment of California as the unfortunately overlooked site for the Garden of Eden that has aroused much comment on the campus. There are some of the other quips and jests the scientist has thrown into his work.

"The Garden of Eden was, of course, a natural landscape which Adam did not seriously mutilate, for the record surely

"Growing seeds do not need sleeping
porches; they do better in incubators."

OVER-GENTLE AMATEUR

The amateur is apt to be too gentle
in his planting. It is not well to act
as though you were disposing downy cover-
lets upon the limbs of a sleeping babe.
It is better to press hard with your
foot upon the soil next to the roots as
though you were trying to stamp the life
out of the plant.Speaking of pruning, Professor Wickson
offers the following: "Pruning is
form in its essence, and no one
can become a sculptor by getting a recipe
to knock off half the marble. It is just
as important to have your thought sharp
as your shears."Coming to the matter of irrigation, he
says in one place in his volume: "The
safest thing to do first is to knock a
hole in the bottom of the eastern water-
ing pot; it will look just as well that way
in a picture, and that is about the only
use for it in California."Of the ordinary way of irrigating he
says: "Rush into the garden with the
hose, turn it on full pressure, dance
about with a squirt here and there, and
then rush back into the house to drink
for dinner, and you have done as little
for the yearning plants as would a
sprinkle of baptism for a man perishing
of thirst in the desert."On another possibility he raises the question:
"One should place the plants a rest, but
be reasonable about it. Some of them
sleep with one eye open; others close
both eyes and snore."The amateur horticulturist, who has
been able to follow only with short
stems, will understand the following
sentence: "We, too, have
worked in the coast district, but, through
careless practice possibly, have always
had these old Dutchmen cursing in the
dirt like an ass in an egg case."

PROFESSIONAL TREE DOCTORS.

Of tree surgery Professor Wickson
comments: "This kind of art has recently
been developed into a professional stand-
ing and one can telephone for a tree
doctor just as he may telephone for
another kind of doctor. The tree doctor
is 'The Canary palm,' he notes in an-
other chapter, 'is simply beautiful, and
acts as though it were aware of the fact
—which is not a fault in a plant beauty.'"
Other comments of interest include the
following:"It is the artist's and poet's desire
that a vine shall not be trained. But
the untrained vine becomes a shell of
growth covering an internal mass of
dead leaves and twigs and impeding
litter until an unusually high wind blows
off the whole bower with its accumula-
tion of old birds' nests, dusting cloths
and other things lost from windows and
various articles thrown from time to
time to too melodious clatter."By buying prepared insect washes, he
writes, "you save all the time and trou-
ble of cooking and mulling and of get-
ting into mortal combat with the cook."
Further along he writes:"Formerly one had to spoil his temper
and his clothes and be late for church
in making and applying some mess to
a plant, while now he can saunter into
the grocer's, buy a bottle of 'Dip,' and
pest, take a shot at it with the proper
ammunition and artillery, get to church
early and enjoy the sermon because he
knows he has put Satan behind him."Professor Wickson, formerly dean of the
college of agriculture of the univer-
sity, succeeding E. W. Hilgard, now
also professor emeritus, and being suc-
ceeded in turn by Dean Thomas Forsythe
Hearst, has been editor for many
years of the Pacific Rural Press and is
president of the California State Floral
Society.ENJOY GLIMPSES

joy both interesting and instructive sub-
jects at this theater.In the afternoon at 2:15 o'clock matinee,
there were men and women from Alaska
who were anxious to renew acquaintance
with Dr. Sugden, who was for years
dean of the University of California and
Police. At 4 o'clock an army of school
children and many school teachers arrived
and at night the house was packed with
theater lovers, teachers and men and
women who wish to learn of the inside of
our last frontier.A most interesting part of the entertain-
ment was the few minutes devoted to
the asking of questions regarding Alaska.
Many old sour-doughs in the house de-
sired to know about the climate, the
north. Each and every time Dr. Sugden
was able to tell them just where the men
are and what they are doing.Someone asked if Rex Beach was ever
really in Alaska, and Dr. Sugden stated
that the prospect holes made by this
great author dot the entire district. He
said also that the story, "The Spoilers,"
is a true record of events and that Rex
Beach married Cherry Malotte, whose real name
he says was Greta.The films show many scenes from
those days and also the home of Rex
Beach.

HOTEL MEN TO MEET.

The Northern California Hotel
Men's Association and Oakland-Berke-

POLITICAL NOTES

The regular meeting of Eugene Stach-
ler Political, Social and Improvement club
was held at Stachler Hall, 3121 Adeline
street, Friday evening. The campaign
committee reported that John Davis re-
ceived the majority of votes for mayor
at the primaries, but they still have faith
that Frank W. Bitter will ultimately be
elected. Also Judge W. R. Geary and Ed-
win Meese for commissioners, and Calvin
Orr for school director. J. Campbell
made up a party of ten members to at-
tend the hall at the Auditorium
opening night.

GEARY HEADQUARTERS.

Judge William R. Geary, who defeated
his nearest opponent at the primaries by
over 400 votes for Commissioner No. 1,
is the first candidate to open his head-
quarters from which to conduct the cam-
paign for the final election. The head-
quarters are at 1220 and 1222 Broadway;
the latter quarters to be used as an an-
nex for the women. The Consolidated
Women's Club will make this their
headquarters with Mrs. L. K. Sharp
and Mrs. M. E. Richardson, sisters of
Geary, in charge. Geary will also have
branch headquarters in East and West
Oakland and in Piedmont
section of Oakland.

ABER RALLY CALLED.

Louis Aber has issued the following:
"The large vote given me at the re-
cent primary election for School Direc-
tor No. 2 prompts me to know with ex-
tended to each and all of my earnest sup-
porters my sincere thanks and appre-
ciation for their most loyal support, which
I trust was merited.""In again asking your support on May
11 next, I desire to emphasize the fact
that I absolutely advocate in the school
department a business administration of
its affairs; publicity in all school mat-
ters; equal wages for both men and women;
the further advancement of our public
schools; and the elimination of politics
in the entire school department.""With the desire to serve Oakland to
the best of my ability, fearlessly and
carably."There will be an Aber rally this evening
at 8:30 in the Hotel Crellin.E. L. Ames, secretary of the Tax-
payers' league, has made a demand upon
the city council in behalf of John L.
Davis, candidate for mayor, that a Davis
man be included in the election board
of each of the precincts on May 11. The
demand has been referred to the city at-
torney for an opinion.GIRL WILL COME
TO RETELL STORYSordid Barlot Occurrence to Be
Recited in Judge Childs'
Case.By Associated Press.
SACRAMENTO, April 27.—May Bar-
lot, a 14-year-old girl, whose testimony
sent her mother, Mrs. Ruby Barlot, an-
other woman and three young men to
prison, on a statutory offense, will come
to Sacramento to tell her story before the
committee conducting a hearing of im-
peachment charges against Judge John
L. Childs of Del Norte county. At 11
o'clock this morning Judge Childs an-
nounced that he had summoned the
girl and that she had been summoned
and has started from Montana.A Sacramento evening paper has pub-
lished an article to the effect that May
Barlot had declared that her testimony
was a lie and that it was not
given under pressure from Judge Childs.
On her story probably will depend whether
Judge Childs will be held for trial in the
Senate.

SOUND TO SHOW INFLUENCE.

It was at Murphy's residence that the
Barlot case made its first appearance
during some of the trials of the five per-
sons accused of abducting her. Attorney
James Henley, counsel for the im-
peachment petitioners, conducted a rigid
cross-examination of Murphy and at-
tempted unsuccessfully to develop that
the witness influenced much of the little
girl's testimony against her mother and
the other defendants. Murphy denied
that he took more than a casual interest
in the case, but said his wife sought to
have May Barlot adhere to the truth
when she gave her testimony.George W. Howland, Crescent City at-
torney, and George A. Webb, another
attorney, went on the stand to refute the
charges that Judge Childs had looted cer-
tain estates which were probated in his
court. He denied an allegation of the
complaint that Judge Childs had favored
him with a great deal of business to
the exclusion of other lawyers.During Howland's examination by the de-
fense, Judge Childs stated that the im-
peachment proceedings were inspired by
George A. Webb, another Crescent City
attorney.A questioning Howland said that
Webb, who is the Del Norte county pro-
secutor, had been the recipient of
many favors at the hands of Judge Childs
and much legal business had been turned
over to him by the judge.

WANTED TO GET EVEN.

H. R. McLaughlin, editor of the
Sacramento Bee, testified regarding a
visit to his office of Stephen Simmons, a
laborer, who pleaded guilty in Judge
Childs' court four years ago on a charge
of burglary. McLaughlin said Simmons
had wanted to "get even" with the
judge and asked how he got his
testimony before the legislative com-
mittee. Simmons is now facing a charge
of perjury for statements he used
against Judge Childs and which later he
repudiated.It is not likely that the hearing will be
concluded before Saturday, as several
witnesses for the defense are to come
from Crescent City. May Barlot is ex-
pected to arrive Thursday.Tax Reform Appropriation
for Special Study Voted;
Clean Jail Bill CarriedBy Associated Press.
SACRAMENTO, April 27.—An appro-
priation of \$25,000 for a thorough study
and investigation of the tax situation,
looking toward a complete revision of
the tax system of the state, was approved
by the senate at a night session last night
in its passage of the bill introduced by
Senator Thompson. The bill permits the
governor to choose experts on taxation who shall re-
port to the 1917 legislature.County jails in which sanitary con-
ditions are deemed to be very bad may be
closed and the state board of charities
and corrections ordered to make a study
of the situation. The bill was introduced
by Senator Thompson and was passed
by a vote of 20 to 10.The senate approved the Merced county
terminal bill in which salaries of the
next board of supervisors will be raised
from \$600 to \$1200 a year.Senator Breed's Public

By Assembly MembersBy Associated Press.
SACRAMENTO, April 27.—Senator
Breed's bill permitting the incorporation
of public utility districts by municipalities
and authorizing the districts to incur
bonded indebtedness for the purpose of
acquiring property or constructing various
public utilities, was passed yesterday by
the assembly.The right of a disqualified judge to
name who shall sit in his place is re-
moved by the terms of a bill by Senator
Benedict, and approved by the assembly.
It requires that a judge shall be named
either by the governor, the presiding
judge or the selection of a judge agree-
able to both parties in a court action.SEEK 21 WARRANTS FOR
JITNEY BUS DRIVERSBy Associated Press.
SEATTLE, April 27.—The Puget Sound
Traction, Light and Power Company, op-
erating most of the street railway lines of
Seattle, filed yesterday for warrants for
the arrest of twenty-one drivers of
five-cent jitney automobiles who were al-
leged to have violated the state law re-
garding such vehicles to furnish a bond
that will cost \$100 a year. The prosecu-
tor, who held a conference yester-
day with representatives of the auto-
mobile owners relative to making a case
to test the constitutionality of the state
law, took the street railway company's

TO BUILD ROADSGovernor Approves Act as Hu-
manitarian, Not Economic
Plan, He Says.By Associated Press.
SACRAMENTO, April 27.—Governor
Johnson signed today the Meek con-
vict labor bill, permitting prison-
ers of the state penitentiaries to
build state highways. A statement
was issued by the governor in which
he said that apprehension that free
labor will be affected is groundless.
"F. Stern, highway commissioner, or-
dinal advocate of the bill, plans to take
personal charge of the contract and live
with them in the mountains, where they
will be put to work running highways
into hitherto inaccessible parts of the
state. It is planned gradually to work
out an elaborate and careful work will
be awarded by reductions of prison
terms."Governor Johnson declared the plan is
an experiment for one that will be cau-
tiously, carefully and judiciously under-
taken, without injury to free labor, but
in the hope that necessary highways may
be constructed where, under the present
system, they are now almost impos-
sible of construction." His statement said:

LITTLE ECONOMIC VALUE.

"After a very thorough hearing and in-
vestigation, I have signed the Meek con-
vict labor law. The act is experimental
and while some of its enthusiastic advo-
cates have talked in rather extravagant
terms about the tremendous saving that
will be made by the use of convicts upon
roads, I do not expect to see much of
that much from the economic stand-
point.""The apprehension expressed that free
labor will be affected is, I am sure,
groundless. The law will enable some of
those in our state prisons, who deserve
it, and desire it, to work in the sunlight
and the air, and in the process of
the law, the convict labor system, which
has been a great success from every
standpoint. It has helped the convicts
as well as the state and there has not
been any serious objection that it inter-
fered with free labor. I believe it is
generally supported by the labor union
and the business community, and it is
a humanitarian and economic standpoint
cannot be successfully questioned. It
seems the ideal system of convict labor,
satisfying to all."

WHERE OTHERS TRIED.

"The roads upon which convicts will be
put to work will be built where other-
wise no roads would be built. They will
be used in localities where no other
roads can be built, and where expe-
rience has demonstrated the almost im-
possibility of constructing roads in the
usual manner with free labor."

SACRAMENTO, April 27.—Four more
school holidays were established when
the Assembly passed Senator Sargent's
bill today. The bill provides for a
Monday day, Labor day and the day fol-
lowing Thanksgiving legal holidays.A series of three measures by Senator
Irwin affecting reclamation districts was
passed by the Assembly. One bill pro-
vides for the consolidation of districts
of any tract of land after an assessment
has been levied the proportion of the as-
sessment shall be made according to
the value of the land. Another bill pro-
vides for notice to the land owners when an
original assessment is levied in any reclamation
district. The third bill requires that all warrants
shall be paid by the trustees without the
necessity of having them approved
by the board of supervisors. Another bill
drawn in favor of the trustees and war-
rants in excess of \$50.Instead of the \$112,000 for new build-
ings asked by Humboldt county for the
State normal school at Arcata the Senate
approved a bill for \$100,000. The bill
allows an appropriation of only \$20,000.
On account of financial stringency it was
decided that new permanent buildings
could not be built this year.Appropriation bills by Senator Gerdes

plaint that Asher, Meyerstein & McNutt,
knowing that the laws of Canada were
different than the laws of this state, in-
stead of a contract for services in that
country must set forth a specific sum, entered
into a conspiracy to take advantage of
this difference to void a contract made

LENGTHENS THE TERMS
OF SUPERIOR JUDGESBy Associated Press.
SACRAMENTO, April 27.—Senator
Fin's resolution to submit to the people
a proposed constitutional amendment fix-
ing twelve years as the terms for su-
perior judges was called up in the As-
sembly today on reconsideration, and an
amendment was adopted to the measure
extending incumbent judges from their pre-
sented terms. The resolution was passed
in the lower house last week by failure of
its proponents to muster a two-thirds vote.
When the amended measure is returned
from the state printer tomorrow the
House again will vote whether the
amendment shall go on the ballot at the
next general election. It is not believed
the Assembly will reverse its former neg-
ative action.

FRUIT STANDARD
BILL IS CARRIEDGuarantee to East of Quality
From California Orchards
Provided.SACRAMENTO, April 27.—A fruit
standard bill by Assemblyman
Ashley, designed to insure a standard
quality of California fruit in the eastern
markets, was passed by the senate yester-
day with only one negative vote, and
now goes to Governor Johnson. It ap-
plies only to fruit shipped outside the
state. Included in the list of fruits are
cherries, peaches, apricots, pears, plums,
prunes, grapes, berries and cantaloupes.
The standards have been adopted at the
request of the Imperial Valley. In an
important part of the bill that sub-
mitted before debate was concluded Sen-
ator Wolfe declared that the bill was
"Although this is the land of fruit and
flowers we all know that the best fruit is
shipped out of the state. I should like
to know if this is going to relieve or ag-
gravate that condition. And why do we
have to protect the fruit men against
themselves. This looks like regulation
score card. We are doing too much regula-
tion."Cegwell, himself a fruit grower, said
it was a bill to keep farmers and fruit
shippers honest and to protect the ship-
pers of high grade goods against shippers
who put their good fruit only on top.
"You can't face this bill," said Stue-
belock another fruit growing senator.
"It will be a message to the east that
it will get only the highest grade fruit
from California."The bill declares that every box or crate
of fruit shall be of practically uniform
size, quality and maturity.JURY QUALIFICATION

man McDonald's bill removing the
property qualifications for jurors was
passed by the senate yesterday with
21 yeas and 15 nays. It is one of the
important measures urged by the
California State Federation of Labor,
and its passage was regarded as
labor's greatest victory of the ses-
sion in the upper house. Final enact-
ment depends only upon the signature
of Governor Johnson. On the first
roll call the bill had one vote of
the needed 21 yeas. There was a call
of the senate, and two senators,
Gerdes and Owens, were brought in.
Gerdes voted aye and Owens no. Ir-
win of Hanford changed his vote
from no to aye, and gave notice of a

BASE BALL

A small, stylized illustration of a baseball player in mid-swing, wearing a cap and uniform, positioned to the right of the title.

It is hinted that Jack Gilmran, the former Coast leaguer, who was with the Sacramento, Portland and San Francisco clubs, will be seen in the near future. Gilmran is now the property of the Minneapolis club of the American Association and has been offered \$10,000 for his services. He will not purchase Gilmran's release if the Minneapolis club will take business with him.

Carl Zamlock, former Detroit and local semi-pro, ball player, was unconditionally released by the Denver club on Western League the other day. Fred Curran, former Seal who was traded to Denver in the deal by which Salt Lake got Louis Lefoy, was also dropped.

The Oakland ball club would like to get Russell Blackburn for its shortstop. But like it would appreciate the advantages of having Eddie Collins at second base. Jacques Fournier at first, but any report or rumor that Blackburn will come to the Oaks this summer is nothing further than a collection of published rumors.

three months old, and long since ex-
ploded.

Inasmuch as the Oaks have just re-
ceived the highest salaries in the coun-
try to keep within the league's salary
limit, it is hardly likely that they con-
template taking on a still higher salary
limit.

Apart from the fact that Blackburne
would prefer to remain east with either
the American Association or the
national league rather than come to the
coast; and the further fact that "Pants"
Rowland has already announced that
Blackburne would be a fixture with the
 Sox this year; and the further fact that
the Oakland club has had no negotiations
of any kind looking toward his ac-
quisition, except three months ago, the rumor
that he is due to become an Oak is in
every way a perfectly good story.

No games scheduled yesterday.

The Oaks certainly look like a ball team now, showing what the addition of a few good men will do to the club. The writer could see little hope for the club when it was in the spring training camp, but now the team is justified in referring to itself as a mediocre outfit. Such men as Daniels, Watson, Manda, Koerner, Alcock, Price, Sampson, Guest, Armstrong, etc., could hardly be considered as the nucleus of a winning club, and it looked as though they were being depended upon. Due credit must be given to Tyler Christian for recognizing the club weakness and revolutionizing things in the last few weeks. The addition of Munda, Marcan, Johnston and Red Kuhn has made the Oaks another "miracle club."

PUNISHED FOR QUITTING VICTIM

Finley Must Serve Sentence for Abandoning Youth He Ran Down.

William A. Finley, wealthy commission man of San Jose, must serve a year in the Alameda county jail according to a decision rendered by the State Appellate Court, which has affirmed the judgment of Superior Judge Waste given a year ago. Finley was found guilty of having violated the new state law making it a felony for a motorist to fail to render aid to a victim.

While speeding from Oakland toward San Jose two years ago Finley ran down Summer Blawie, 19 years of age, on the Warm Springs road, near Irvington. Blawie was riding a motor-cycle, proceeding north after the accident, proceeding to San Jose, where he was arrested after a several days' search. Blawie died of his injuries shortly after the accident.

Finley was tried before a jury in Judge Waste's court. He testified in his defense that he had seen Blawie and did not know that he had struck him down. After his conviction and sentence he appealed the decision.

A charge of manslaughter is also pending against Finley. This was continued for three months by Judge Trabucchi, sitting for Judge Ogden in the criminal court, this morning.

OAKLANDER OBJECTS TO RIVAL CONSOLING WIFE

Otto Becker, an Oakland paint contractor, started a small riot in a Stockton court yesterday when he objected to having Frank B. Woodson, a Woodbridge real estate man, console his wife, Evelyn Becker, following their arrest on a statutory complaint by the husband. Becker was in the courtroom when the two were brought in to be admitted to bail. Woodson leaned tenderly over Mrs. Becker, to console her, when Becker rushed toward the pair. An officer restrained him.

Woodson and the woman entered pleas of not guilty and were immediately released on bail, after which they stepped into Woodson's automobile and drove away. Becker alleges that his wife and Woodson have been together for nearly a year.

TRAINFUL IS VACCINATED

Police and Gillihan Perform the Deed

Armed with the authority of the law and vaccinating needles, Dr. Allen F. Gillihan, city health officer, and three assistants, backed up by a squad of police officers, who were armed with night sticks, barred the way to freedom to three Pullman coaches of indignant passengers at the Oakland mole last night. Despite threats and protests, the passengers were vaccinated, and then allowed to proceed on their way.

It all happened because a man suspected of having smallpox was taken on at Sparks, Nev., and taken off at Truckee. The sleeping car in which he had been placed on the Atlantic Express was detained at Sacramento, but Dr. Gillihan learned that passengers in the three Pullmans had walked through the sleeper's coach had carried the patient. So that was the reason that he decided to discontinue a lot of millions and others—men, women and children—straining them until their arms had been pierced and vaccine injected.

Therefore, Dr. Gillihan and three assistants met the Atlantic Express as it rolled into the Oakland mole. Before the doors could be opened officers had been stationed at each of the three Pullmans, and the physicians began their work. Inspectors of Police, Ensign, Sergeant Thompson and Patrolmen Tuttle, Cowley and Merrick guarded the passengers, while the physicians piled their needles. The car doors were locked, and no one was permitted to leave or enter until the doctors had finished their work.

ANOTHER DOCTOR VEXED.

"The biggest piece of tommyrot I ever saw," declared Dr. W. A. Sedwick of Denver, a passenger on the train. "People were allowed to get on and off the cars at will all the way from Denver here. The train crew knew there was a smallpox case on board, but did nothing to prevent people boarding the train, although they informed them of the fact. I don't see why the passengers at the terminal should have been held up in this way, after such laxity all along the line."

ELECTRICITY TO DRIVE BATTLESHIP CALIFORNIA

WASHINGTON, April 27.—Electric propelling machinery for the new battleship California, the first battleship of any nation to be equipped with the electric drive, will be built by the General Electric Company of New York for \$431,000. Award of the contract was announced last night by Secretary Daniels after the naval board had considered bids for both steam and electric drives.

The California is under construction at the New York navy yard, which submitted an estimate of \$621,000 for a steam engine. Daniels' decision to install electric machinery has created keen interest in naval circles, and some officers think the success of the experiment would mark as great an advance in marine propulsion as did the advent of the steam turbine.

LIVE ISSUES IS SEN. WEEKS' TOPIC

Many Will Hear Address by Massachusetts Man at Oakland

"Live Issues" will be the topic under which Senator John W. Weeks, one of the nation's most noted lawmakers, will address members of the Chamber of Commerce-Commercial Club tomorrow at noon in the south banquet room of the Hotel Oakland. The noted Massachusetts statesman, who is in California on a visit to the Panama-Pacific Exposition, is an old friend of President Victor Metcalf of the local commercial organization, the two having worked together in Washington at the time Metcalf served as secretary of the navy, and the president will introduce the distinguished guest tomorrow at the meeting.

Arrangements have been made to accommodate a large crowd at the session, which will be informal in nature. The statesman will speak on a variety of subjects of vital interest particularly to business men, and will also make many details regarding matters at issue in the nation's capital at the present time.

CHORAL CLUB GIVES MATINEE MUSICAL

The Wednesday Morning Choral Club gave a notable musical this afternoon at the Elbell Club under the direction of Paul Stenford. In presenting the program the singers were assisted by a group of well known musicians including Mr. Herbert Riley, cellist; Mr. William Edwin Chamberlain, harpist; Mrs. Tyler Tubbs Henderson, Mrs. T. A. Addison, Mrs. Mabel Hill Redfield, Mrs. E. Farley, Mrs. George Jensen and Mrs. J. Ralph Bessette.

Mrs. Newton Koser, the receiving hostess of the day, was assisted in greeting the hundreds who attended, by the following members of the club: Mesdames: E. W. Owen, C. H. King, R. H. Kessler, W. E. Montgomery, Harry Benner, A. L. Cunningham, J. W. McClymonds, Sam Bell Wakefield, Robert Collins, F. R. Taylor, Arthur Crellin, George Rodolph, William Morrison, William E. SAYS SHE TOOK WATCH.

SAN FRANCISCO, April 27.—The police are seeking a manicurist who succeeded in robbing August Dedar, of 58 Post street, Dedar says he gave the woman a bracelet watch to look at. She put it on and subsequently disappeared. He told the detectives that he had employed her for some time, but that she had given up her position. He believes she fled to Nevada.

OAKLAND GIRL IS VAUDEVILLE HIT

Miss Elise Schuyler Presents Novel Act to Delighted Orpheum Crowd.

Elise Schuyler, Oakland girl and talented actress, who formerly hit at the Orpheum are now drawn to theatergoers, returned to Oakland last night with one of the cleverest acts seen on the local boards in some time. The new act was one of the striking features of "Discovery Night." Assisted by an extremely pretty girl and all manner of other things, she presented a most striking novelty of the season.

Several clever acts were featured on the Discovery Night program. Days and Dollars offered the idea of an Amateur. J. W. Wood and J. K. K. appeared in a musical act. J. W. Jenkins, local composer, sang a number of her own songs, and the Vaudeville duo played and sang. Luna Abrahams, the "Ride Shop," Fred Arlath and the rest of the regular Orpheum hit was also seen to advantage.

ALTA MOUNT ROAD WILL BE CLOSED FOR WORK

Officials of the State Engineering Department today announced that the Altamont pass road, on which most of the traffic to and from the central part of the state and Oakland goes over, will be temporarily closed for repairs. Motorists are requested to use the Patterson road, branching off at Livermore and again at the Mountain House.

The state highway is being re-surfaced and repaved. At the Altamont pass there is insufficient room to permit of one portion of the highway being left open while work was done on the other. A large gang of men will be put to work and the repairs rushed to completion.

SANTA CLARA COLLEGE'S "OLD GUARD" TO DINE

The Alumni Association of the University of Santa Clara will hold its annual banquet Tuesday evening, May 4, at Old Fiddlers Inn, on the Exposition grounds. Special illumination and a fireworks display has been arranged for the benefit of the "old boys."

John J. Barrett is chairman of the committee in charge, with Robert J. Flood acting as secretary, and William Boland, S. J., moderator.

Hubert Quinn of Oakland has been appointed chairman of a meeting of Santa Clara alumni, who live in Oakland and vicinity, to be held Friday at a place to be selected. Santa Clara's desire to attend are urged to communicate with Quinn.

Bisurated Magnesia for Stomach Troubles

In these days of almost universal indigestion, dyspepsia and other stomach trouble, the recent announcement by a great specialist that pure bisurated magnesia is an almost infallible remedy for nearly all forms of stomach trouble, will come as a welcome surprise to all sufferers. A teaspoonful in a little water immediately after eating, or whenever pain is felt, neutralizes the excess acid, and instantly stops the fermentation and pain. Those who use bisurated magnesia regularly for a week or two usually find that the trouble has entirely disappeared, and normal digestion is completely restored.—Advertisement.
